

## 67<sup>th</sup> ICASS PROGRAM AT A GLANCE

| Time               | Tuesday<br>May 27, 2025                                                                                           | Wednesday<br>May 28, 2025                                            | Thursday<br>May 29, 2025                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|------------------------------------------------------------|
| 8:00-8:40 or 9:00  | Hot buffet breakfast ( <i>Bellevue</i> )                                                                          | Hot buffet breakfast ( <i>Bellevue</i> )                             | Hot buffet breakfast ( <i>Bellevue</i> )                   |
| 8:40 or 9:00-10:00 | Gerhard Herzberg Award presentation & Burgener Research Graduate Student Award presentation ( <i>Islandview</i> ) | Separations & MS I ( <i>Islandview</i> )                             | Separations & MS III ( <i>Islandview</i> )                 |
|                    |                                                                                                                   | Sample intro for the ICP ( <i>Cabinet</i> )                          | Environmental Analysis I ( <i>Martello</i> )               |
|                    |                                                                                                                   | Forensic analysis ( <i>Junction</i> )                                | NMR III ( <i>Cabinet</i> )                                 |
|                    |                                                                                                                   | Speciation analysis I ( <i>Martello</i> )                            | Electrochemical & surface analysis III ( <i>Junction</i> ) |
| 10:00-10:40        | Coffee break & posters ( <i>Bellevue</i> )                                                                        | Coffee break ( <i>Great B</i> )                                      | Coffee break ( <i>Great B</i> )                            |
| 10:40-12:00        | 2024 & 2025 PerkinElmer Analytical Science and Spectroscopy Award presentations ( <i>Islandview</i> )             | Separations & MS I ( <i>Islandview</i> )                             | Separations & MS III ( <i>Islandview</i> )                 |
|                    |                                                                                                                   | Sample intro for the ICP ( <i>Cabinet</i> )                          | Environmental analysis I ( <i>Martello</i> )               |
|                    |                                                                                                                   | Forensic analysis ( <i>Junction</i> )                                | NMR III ( <i>Cabinet</i> )                                 |
|                    |                                                                                                                   | Speciation analysis I ( <i>Martello</i> )                            | Electrochemical & surface analysis III ( <i>Junction</i> ) |
| 12:00-13:20        | <b>Exhibition opening</b> , lunch buffet ( <i>Bellevue</i> )                                                      | Lunch buffet ( <i>Bellevue</i> )                                     | Lunch buffet ( <i>Bellevue</i> )                           |
| 13:20-15:00        | Agricultural & food safety I ( <i>Islandview</i> )                                                                | Separations & MS II ( <i>Islandview</i> )                            | Separations & MS IV ( <i>Islandview</i> )                  |
|                    | Electrochemical & surface analysis I ( <i>Martello</i> )                                                          | Electrochemical & surface analysis II ( <i>Junction</i> )            | Nanomaterials and their analysis ( <i>Crawford</i> )       |
|                    | NMR I ( <i>Cabinet</i> )                                                                                          | NMR II ( <i>Cabinet</i> )                                            | Environmental analysis II ( <i>Martello</i> )              |
|                    | LA/LIBS ( <i>Crawford</i> )                                                                                       | Speciation analysis II ( <i>Martello</i> )                           |                                                            |
| 15:00-15:40        | Coffee break ( <i>Bellevue</i> )                                                                                  | Coffee break ( <i>Bellevue</i> )                                     | Coffee break ( <i>Bellevue</i> )                           |
| 15:40-17:00        | Agricultural & food safety I ( <i>Islandview</i> )                                                                | Separations & MS II ( <i>Islandview</i> )                            | Separations & MS IV ( <i>Islandview</i> )                  |
|                    | Electrochemical & surface analysis I ( <i>Martello</i> )                                                          | Electrochemical & surface analysis II ( <i>Junction</i> )            | Environmental analysis II ( <i>Martello</i> )              |
|                    | NMR I ( <i>Cabinet</i> )                                                                                          | NMR II ( <i>Cabinet</i> )                                            | Nanomaterials and their analysis ( <i>Crawford</i> )       |
|                    | LA/LIBS ( <i>Crawford</i> )                                                                                       | Speciation analysis II ( <i>Martello</i> )                           |                                                            |
| 17:00-18:00        | Poster session ( <i>Bellevue</i> )                                                                                | 17:00-17:30 Break                                                    | End of 67 <sup>th</sup> ICASS                              |
| 18:00-18:30        | Refresh and walk to cruise ship                                                                                   | 17:30-18:30 Reception with walk-around magic ( <i>Bellevue</i> )     |                                                            |
| 18:30-22:00        | <b>Sunset dinner cruise</b> (ticket required)                                                                     | <b>Banquet with magic show</b> (ticket required) ( <i>Bellevue</i> ) |                                                            |
